

# PRODIM

**STAYING AHEAD OF THE DESIGN CURVE WITH  
DIGITAL TEMPLATING USING THE PROLINER  
AND PRODIM'S FACTORY SOFTWARE**

# PRODIM

**With the introduction of new materials and trends, the Stone Industry is advancing and that means projects and measurements are getting more complicated. Prodim has a solution to keep you ahead of the curve. Using the revolutionary Proliner Digital Templating System and Prodim's Factory Software we will explore how to use digital templating and software solutions to your advantage. From basic 2D countertops to advanced 3D multiple-plane projects. We can help streamline production, optimize workflows, and reduce waste. Experience a new era of precision and productivity in your templating and manufacturing processes with our integrated solutions.**

# THE IMPORTANCE OF DIGITAL TEMPLATING

- Traditional templating methods can be time-consuming and error prone
- Digital templating offers accuracy, efficiency, and versatility
- It allows for precise measurements and seamless integration with design/production software

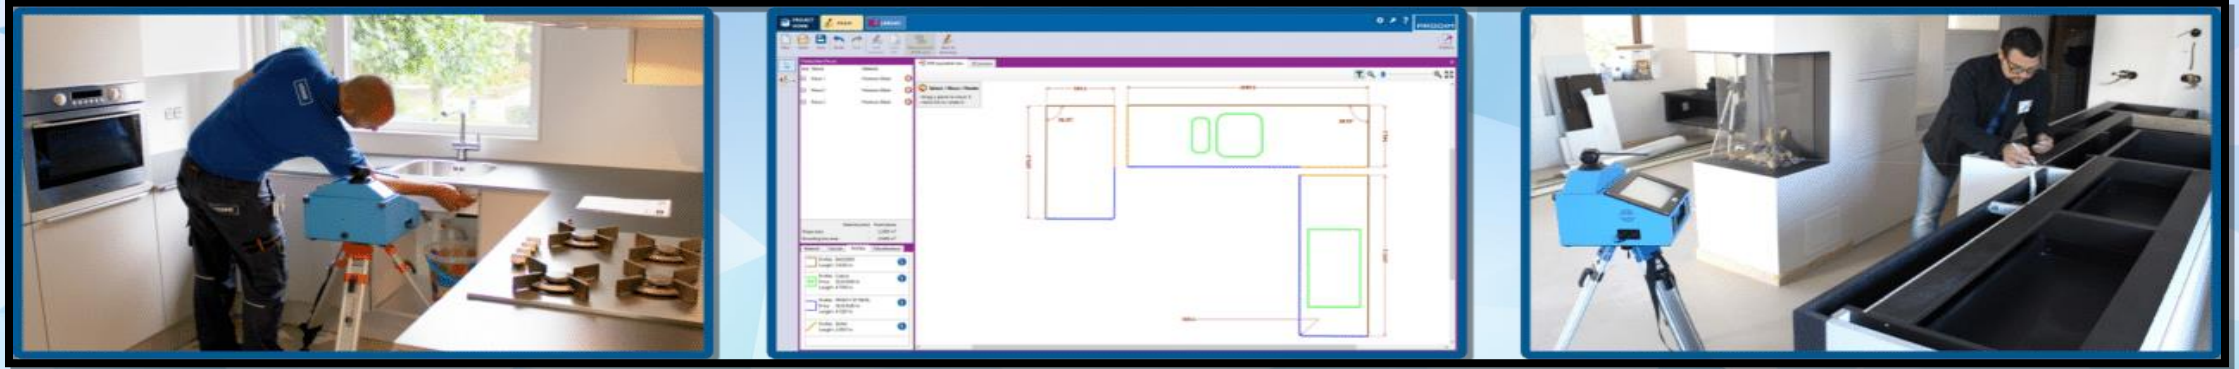

# INTRODUCING THE PROLINER STONE PACKAGE

- **The complete package for digital templating countertops, backsplashes and more. Enables stone shops to finalize templates on-site as well as to process the project measurements in the office and factory**

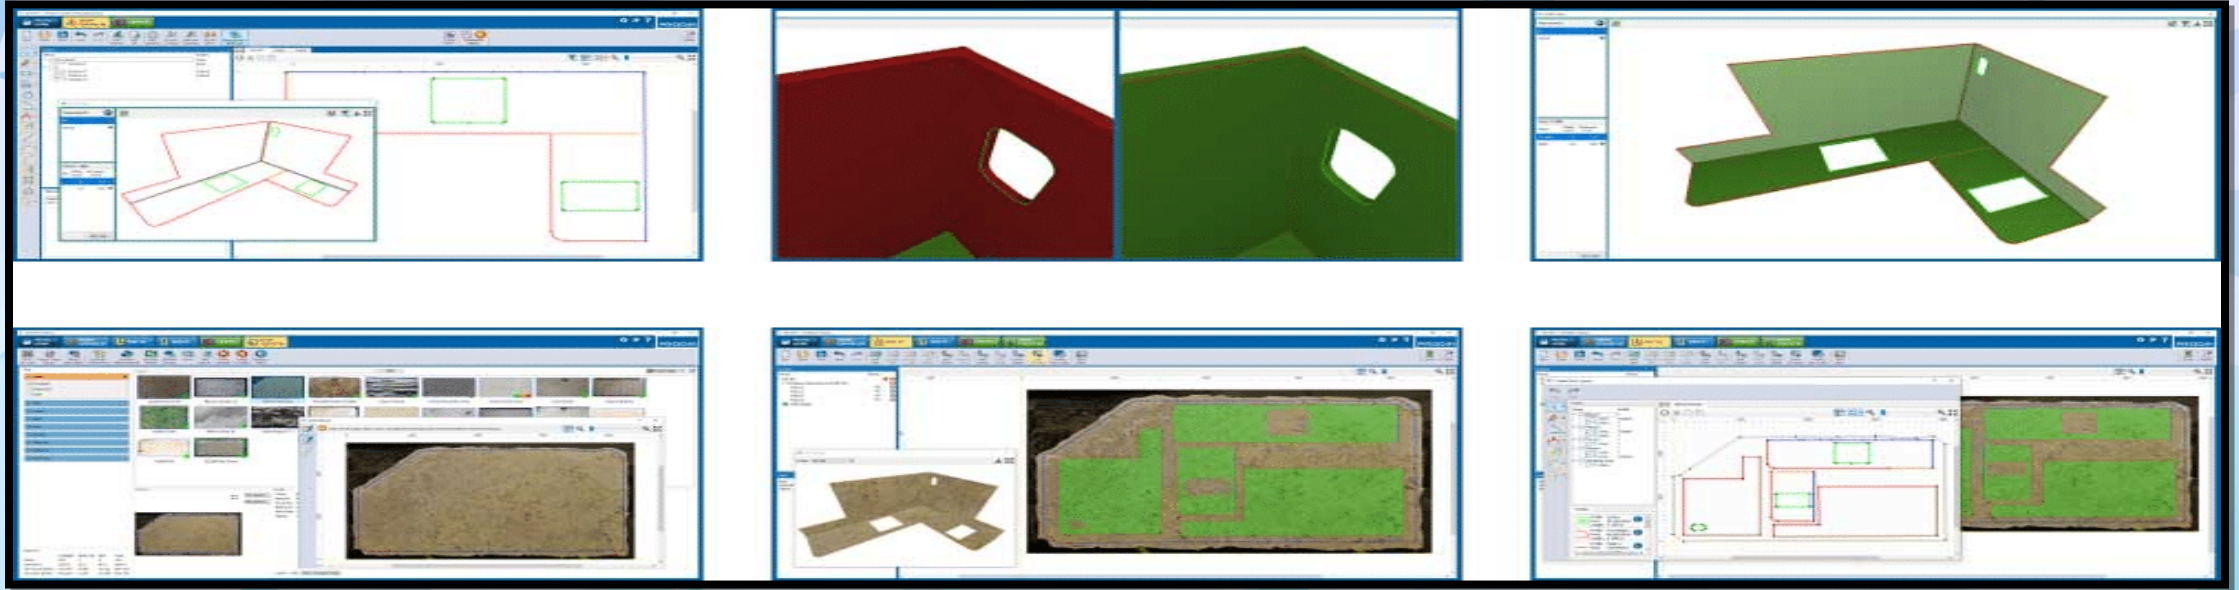

# THE PROLINER

- **Unique Contact Measuring Technology**
- **Highest Accuracy of all digital templating systems**
- **Measures complex shapes with ease**
- **Easy to use on-board CAD software to check, edit and finalize templates on-site**
- **Portable for easy set up and break down**
- **Immediate .dxf output for seamless integration to all CNC**

# PRODIM FACTORY

- **Manage project files and images**
- **Create library of with collections of materials, cut-outs and profiles**
- **CAD tool to create drawings from scratch or edit digital templates directly from the Proliner**
- **Construct multiple planes in 2D/3D and create solids**
- **Check and correct solid collisions in 2D/3D**
- **Flexible Digital Slab Library**
