

FloorPro® III ERP

Enterprise Business Software

American Business Software, Inc.
Quality Solutions, Industry Focus
Since 1984

Sound familiar?

- Is your existing software not cutting it for your business?
- Can your software truly handle your flooring inventory?
- Are you looking to change or customize some things in your software, but can't?
- Your software support people do **not** understand you or your business?
- Does it take forever to get help or to solve a problem?
- You wish you could find someone competent to help you?
- Is your software overpriced and underperforming?
- Is your software cumbersome and outdated?

What do we bring to the table?

- 35+ years of industry experience and expertise
- We understand your business
- Superior customer service (Yes, you'll be favorably impressed)
- Outstanding technical support
- Cloud or in-house installations
- Industry focus: tile, stone, wood, carpet, sheet vinyl, laminates, installation supplies and more
- Data migration and conversions
- Access the software and your data from anywhere in the world with internet access

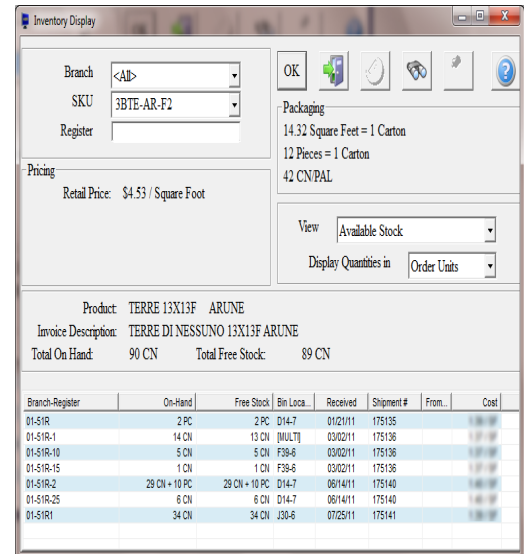

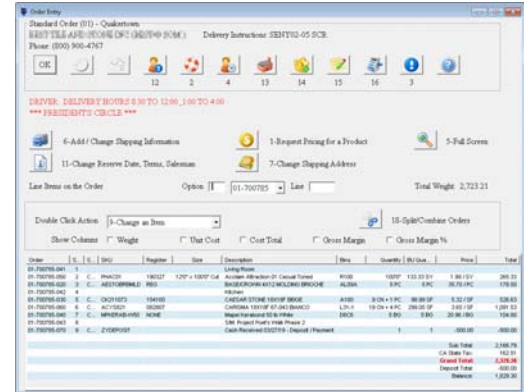

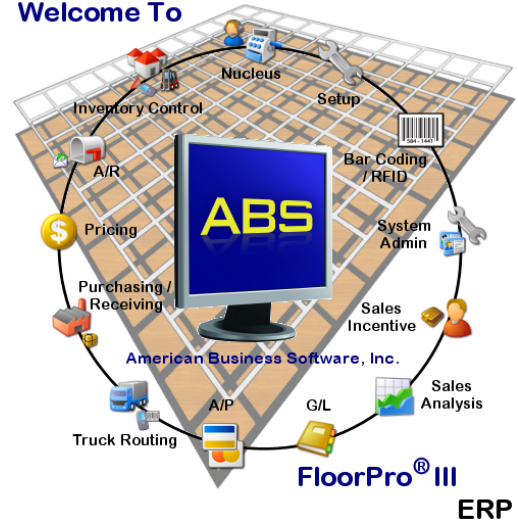

We're proud to be more than simply a software provider. **We provide software-driven process improvement.** The overwhelming majority of the problems we solve are really not hardware or software problems at all. Common questions are "Why is the gross margin so low on this order?", "Who manually priced this line item?" and "What report should I run to see this sales trend?" We partner with our customers to solve problems. Bring us the problem and we'll solve it.

We are a proven entity with a track record. We have been providing solutions for the flooring industry for over 35 years, with a focus on innovation and leading-edge solutions. We blend our extensive business knowledge with state-of-the-art technology to bring you systems equipped to handle all facets of your business.

Many businesses have discovered that their systems simply aren't equipped to handle the complexities of their inventory. What sets us apart from these other systems is our understanding and ability to handle the challenges associated with your business.

In addition to our fine products and superior customer service, we recognize **integrity** and **pride** as the cornerstones of our business.
